CULLING THE WORK.

A DOZEN MEASURES GIVEN PRE-CEDENCE.

The Republican Senatorial Caucus Fixes a Program for the Session.

Every Method of Expediting Final Action on the Tariff Bill Taken by Both Chambers.

Several Acrimonious Tilts in the Raum Committee Room-Mr. Cooper Says Mr. Flick Is No Gentleman and Is Called a Dirty Dog-Capital Items.

WASHINGTON, Sept. 11.—A cancus of Republicans senators was held this morn-ing, at which Senator Edmunds presided, to arrange an order of business for the rest of the senson. About a dozen meas-ures were considered to be of sufficient imrtance to warrant them being placed on

he program.

Most of the members had a measur which he deemed of sufficient importance to warrant its being placed on the order of business. It was decided however to limit the program to the following bills, to be considered in the order named and after the report of the conference committee on the land grant forfeiture bills shall have been disposed of:

First—Anti-lottery mail bill. Second—The bill to repeal the timber cul-Phird-The bill to establish private

claim courts.

Fourth—The bill for the relief of the su-Preme court.
Fifth The bill for the adjustment of laims of laborers, etc., under the eight hour

Sixth-The bill making eight hours a

Sixth—The bill making eight hours a flay's work for laborers, etc., in government employ, or employed by contractors floing government work.

Seventh—The bill to transfer the revenue marine service from the treasury department to the navy department.

Eighth—The Paddock pure food bill.

Ninth—The bill for the settlement of claims arising from Indian depreciations.

Tenth—The Torry bankruptcy bill.

Elseventh—The bill to place telegraph companies under the operation of the interstate commerce law.

Twelfth—District of Columbia bills.

The first thing to be considered is the

The first thing to be considered is the conference report on the land grant perfecture bill now pending before the senate. There was some talk of adjournment but nothing definite agreed to as to the date. It was the general opinion that until the tariff bill is finally disposed of a day for adjournment can not be fixed.

NO TIME TO BE LOST.

Both Houses Preparing to Complete the Tariff Bill.

WASHINGTON, Sept. 11.—The enrolling therks of the senate kept their work on the heriff bill well up with each day's proceed-ings of the senate so that this morning the long bill was ready for a final comparison hefore being sent over to the house. The work of examit in the bill for possible errors was compacted shortly after noon 12:35 adjourned. errors was compacted shortly after noon and during the day it was signed by the President Pro Tem Ingalis and sent to the more more nouse. When it meets tomorrow morning the bill with the senate amendments will, under the rules of the house, be re-lerred without special action to the com-nititee on ways and means as was done when the silver bill was referred to the colonge committee. A meeting of the ways and means committee will be called for the earliest date practicable and unless some earnest date practicallie and influes some unexpected obstacle is encounted on the part of the Democratic members of the committee the bill will be reported back to the house with the committee's recom-mendations on Tuesday. The committee's recommendation, it is predicted, will be that the house agree to such of the senate amendments as are merely verbal and do not change rates and that as respects those amendments which do increase the rates in the bill as sent to the senate the house non-concur and agree to the conference asked by the senate. Meanwhile, although the bill is not yet in conference, the Republican members of the commit tee are quietly examining the senate amendments with a view to expediting their disposition in conference.

Mr. Flick admitted that he had misunderstood Mr. Cooper's statement relative to the books. Mr. Cooper withdrew the remarks which had offended Mr. Flick; Mr. Flick in turn withdrew his unpleasant characterization of Mr. Cooper, and good feeling was restored.

After recess. Assistant Secretary Bussey was called. Mr. Cooper asked if the witness had investigated the charges connecting the commissioner and Mr. Leinon. The witness replied: "Do you Leinon. The witness replied: "Do you suppose I'm going to take up everything I see in the newspapers and act upon it? I don't deal in newspaper slander."

Continuing, he said Commissioner Raum had told him the circumstances fully and the explanation was perfectly satisfactory. He had nothing to do with the commissioner's private business so long as he conducted the public business properly and honestly.

THE LAND FORFEITURE DISCUSSED. Washington, Sept. II.—On motion of Mr. Plumb, the conference report on the railroad land forfeiture bill was taken up. The main proposition is sustained in the first section as follows:

That there is hereby forfeited to the United States and the United States and the United States hereby resumes the title thereto all lands here-

profession to aid in the construction of a callroad opposite to and co-terminus with the portion of any such railroad not now completed and in operation, for the con-struction and benefit of which such lands were granted; and all such lands are de-clared to be part of the public domains; provided that this act shall not be construed forfeiting the right-of-way or station rounds of any railroad company heretore granted. Mr. Morgan opposed the report as a log-

rolling scheme gotten up for the benefit of all the land grant roads. After speaking for over four hours, Mr. Morgan said he knew that the questions which he had been discussing were going to their grave in the passage of the bill, but that he had in the passage of the bill, but that he had desired to give them a decent burial. He had wished to erect a head stone over the graves of the rights of the people on the line of the Northern Pacific, that the historic record might be read hereafter. He had wanted to remind the people of the United States of the vast robbery perpetrated by that company and which was now sanctioned, wound up and brought to a conclusion by the bill.

Without finishing his speech, Mr. Morgan yielded for a motion to adjourn.

AN ASTOUNDING FEAT.

Wonderful Power of Johnstone, the Mind-Reader.

Chicago, Ill., Sept. 11.—P. Alexander Johnstone the mind-reader, whose pecu-liar powers have of late mystified and as-Committeemen.

Washington, Sept. 11.—Right at the beginning of its session this morning, the special house committee investigating the charges against Commissioner Raum had the usual daily tilt.

Mr. Lewis, the Democratic member, rising to a personal question, said that he had been credibly informed that while he was engaged in conversation with Mr. Emyser, who was on the stand, the other day, the chairman had said that his (Lewis) conduct was not gentlemanly, and (Lewis) conduct was not gentlemanly, and Chairman Morrill said he had no recol-lection of having made such a remark and Mr. Sawyer also denied that it had been the Grand Pacific hotel by a difficult route the officious outsiders who were seeking to intermedide and make hard feeling in the committee.

Commissioner Raum, beginning his defense asked that Mr. Cooper be sworn. In answer to the commissioner's questions. Mr. Cooper said that his attention had first been called to the refrigerator company by the newspaper articles, and after was astonishing. Johnstone instantly first been called to the refrigerator company by the newspaper articles, and after ward by George P. Fleming. The commissioner said that Fleming was himself the author of the defamatory articles.

The investigation ran along quietly again for a quarter of an hour and then there was another outbreak. Mr. Cooper was still on the stand and had said that he had never seen the books of the company, when Mr. Black sharply queried: "You know you are on oath, don't you? You have sworn a moment ago that you could baye sworn a moment ago that you could that those books and sustain these charges.

Mr. Merten-It seems to me it is fair to elect this officer. The house should have a voice in the matter. The chief officers of the house are all elective. We have a right to have our say in the election.

Mr. Terrill-The object I had in wishing the change is that we might try several men and secure the services of the right

Mr. Neal-I think the house is abundantly able to make the selection. Mr. Curran concurred with the gentleman from Logan.

—This has been a red-letter day in the history of Oklahoma City. The citizens of this bold and ag gressive town have shown themselves no less able in the arts of peace than in carry ing on an offensive campaigu. The samenergy displayed in sending Brown and his cohorts to Guthrie, to carry away by their skill and finesse the capital from where, by right of divine inheritance it is supposed to belong by Guthrieites, was mani-fested in their reception of their guests

from the rival city. When the afternoon south bound train pulled up to the depot the passengers upon t were greeted with acclamations of wel ome, while the band played "Come Ye Dis consolate." Reception committees crowded the platform, and took into their arms the dear members as they alighted.
